PROGLOVE

MARK Pro multi range - wearable barcode scanner

Work without interruptions

MARK Pro combines premium wearable scanning with intelligent workflow control and connected services to keep workers productive and operations running at peak performance.

20%
higher productivity

88%
lighter than the legacy handheld scanner

33%
fewer errors

2×
faster exception handling

MARK Pro multi range - workflow impact and product capabilities

BUILT FOR WHAT'S NEXT

01 Inbound decanting & receiving

Carton-to-tote handling stays continuous because the scanner is already worn on the hand.

HANDS STAY FREE

02 Pick & stow

One device for all scanning distances across shelves, totes, and pallets.

ONE DEVICE, MIXED DISTANCES

03 Packing & returns

Configurable controls allow for categorization and labeling of packed and returned goods.

LESS BACK-AND-FORTH

04 Vehicle-based workflows

Scan at longer distances without leaving forklifts or carts.

REACH FARTHER WITHOUT SWITCHING TOOLS

Scan across any operation

Any barcode, near or far, captured in milliseconds

Trigger more than scans

Four configurable on-hand controls for intelligent workflows

Manage the fleet centrally

Connected Device Management via ProGlove INSIGHT

45g	IP65	12,000+	Configurable
